

Building Electrical Safety Check

Limited Offer

Why?

Why do you need a Property Safety Inspection?

- Electricity, if not properly installed and maintained can cause a risk to lives and property
- A safety inspection provides piece of mind that there will be no unexpected risks or costs.
- Less time wasted reacting to electrical breakdowns
- All safety inspections come with a full professional report and include photos of problem areas.
- Receive a discount on electrical repairs if you have a perfect score on your safety check

What's Included?

We include a full electrical safety inspection of:

- 1 switchboard
- RCD's (Safety Switches) including operating time testing
- Wiring, junctions, recessed lighting, ELV and solar cabling within roof space.
- 1 Air-conditioner
- Up to 3 smoke alarms (Replacement Batteries Included)
- Functional testing and visual inspection of Lighting points, switches and power points

Includes thermal imaging of 1 switchboard with our state of the art **FLIR** thermal imaging camera
